

# DOG HEALTH PLAN

Our health plan is a cost-effective way to provide your dog with flea and worming treatments and their booster vaccinations by paying a regular monthly amount.

Our options are:

- Flea and tick treatment – monthly or three-monthly tablet, or monthly spot-on.
- Worm treatment – tasty chewable tablet.
- Annual booster vaccinations (if required).

There is a six-month health check with one of our Nursing Team included.

The plans are banded for your dog's weight so should your dog's weight change, you could move to a different band.

For further details, please ask one of our Reception Team.

Please see overleaf for further explanation.

# QUESTIONS?

**Q: Why are you doing this scheme?**

A: To offer our regular, loyal clients the opportunity to spread the cost of flea/worming and vaccination throughout the year.

**Q. How much does it cost?**

A: The plans start from £9.00 per month (for flea and worming treatment only for a small dog) up to £20+ (including vaccinations for an extra-large dog). Please ask a member of the Reception Team for more details.

**Q: How do I join?**

A: You will need to have been a Practice client for at least six months and complete an application form. We will send a letter to you confirming all details. You will need to pay your first month's payment (by card/cash etc) and then set up your standing order.

**Q: What if I want to leave the scheme during the first 12 months?**

A: We will request full payment of all services and treatments that your dog has received up to date at our standard price.

**Q: What is included?**

A: Flea/tick treatment and worming treatment. Standard booster vaccinations can also be included. A six-month health check with one of our Nursing Team.

**Q: What happens at the health check?**

A: The appointment is with one of our Nursing Team. They will perform a general health check, weigh your pet and give you your flea/tick/worm treatments.

**Q: What is not included?**

A: Initial or restart vaccinations. Rabies/kennel cough vaccinations. Any other veterinary service or treatment. Any other offer on any flea/tick/worming treatment.

**Q: Why can't I pay by another payment method each month?**

A: Unfortunately, it would be too difficult to administer.

**Q: Can two dogs be under the same plan?**

A: Unfortunately, not. It's one dog per plan.
